--As Reported by Exporters

Outstanding export sales as reported by private exporters and compiled with other data in this release give a snapshot view of the current contracting scene. At any given time in the course of a marketing year outstanding sales do not bear a consistent relationship to eventual export shipments. A meaningful export projection is not obtainable by the simple device of adding outstanding sales to exports to date. The latter data, alone, may provide a more reliable measure of current export activity than may be derived from a year-to-year comparison of outstanding sales.

COMMENTS PREPARED BY THE OFFICE OF THE GENERAL SALES MANAGER

EXPORT SALES REPORT

Comments on release of February 10, 1977 (based on reports from exporters for the week ending January 30, unless otherwise noted):

Wheat: Sales activity for wheat continued slack, totalling the third lowest so far this marketing year (MY). Japan was about the only significant buyer. An optional origin sale to Poland of 49,545 metric tons (MT) was assigned other than U.S. origins. In contrast, the wheat products export market is booming with total sales to date of 871,900 MT compared with 256,400 MT for the same period a year ago. Three countries -- Egypt and Sri Lanka (PL-480), and Saudi Arabia (commercial), account for nearly 90 percent of the sales.

Corn: Activity continued modest in the corn market despite the deep freeze that has settled over the corn belt. Tunisia registered their first purchase of the MY, while Taiwan, Japan, and the EC were the major customers for the week. A number of destination changes were reported with the EC benefitting most from the shifts. Exports continued reasonably heavy despite the problems of getting grain from the interior to the ports. Under the daily system, a sale of 101,600 MT for 1976/77 delivery was reported to West Germany.

Barley: After a period of modest activity, barley sales surged ahead. The EC was again the major market, however, sales to unknown destinations also showed a significant increase. Total sales for the 1976/77 MY continue to run slightly in excess of the USDA export estimate.

Grain Sorghum: Sales activity was slow as the assignment of destinations to sales previously reported to unknown dominates the report. Optional origin sales of 66,400 MT to Japan were declared as U.S. origin and shipped. There were also 64,600 MT of new optional origin sales reported to Japan. The first sales of the MY were registered to Cyprus and Colombia.

Rice: Despite the continued absence of PL-480 activity, sales were extremely heavy. Iran continued to add to their total purchases, while the USSR upped their purchases to 36,700 MT. Sales to unknown destinations were also up significantly accounting for 43 percent of the new sales. In contrast, ship loadings were the second smallest so far this MY. For the first time this MY, two sales of rough rice, each totalling 5,000 MT, have been reported. These sales, one medium and the other long grain, have been included in the respective brown rice categories.

Soybeans: Large sales to the EC and to unknown destinations resulted in the heaviest sales activity so far this MY. A number of changes in destinations were also reported. Sales to the USSR and Japan fell by 34,200 MT and 43,900 MT, respectively, due to contract adjustments. Weekly exports were modest with the EC (179,000 MT) and Japan (100,200 MT), the major takers.

Soybean Cake and Meal: Sales activity retreated from last week's season high but was still the second heaviest so far this MY. Large new sales to Eastern Europe were the major feature. Exports, down from the previous week, went primarily to the EC and Eastern Europe.

Cotton: Sales activity was not significant. However, half way through the MY, outstanding sales and accumulated exports already are 97 percent of the USDA export projection. Exports improved this week with Japan, Korea, Hong Kong accounting for 62 percent of this week's total. Exports to all destinations are now 41 percent of the USDA projection.

Oats and Soybean Oil: Showed no significant activity.
